

# CareConnect - What are the colorful boxes under the attendance column?

## Question:

On the website version, what do those colorful boxes represent under the attendance column?

On the mobile version, why are there colorful dots next to the input dates?

## Answer:

**Green** box/dot represents students' attended days that include both their time in and time out.

**Yellow** box/dot represents students' absent days.

**Red** box/dot represents an incomplete attendance day. In other words, there is a time in but no time out or vice versa.

**Purple** box/dot represents the number of days a parent needs to sign. Keep in mind, depending on your agency/organization, a daily parent signature may not be required.
